

Vision Series

AR-837-E/P/W/EE/EF/EA/EL

RFID Tag / PIN Code / Fingerprint Recognition/ Face Recognition / QR Code Recognition

Multi-Language Menu Setting

Intuitive menu make functional setting simple, no need to memorize command set

8 Sets of Time Attendance

Duty On/Off, Break Out, Break Return, Overtime On/Off

Support SOYAL Cascade Structure

Built-in multiple control modes:

- 1. One door
- 2. Two door (with WG reader)
- 3. Multiple doors (with multi-door control panel)

Reader Mode Supported

Not only a controller, but a reader if utilized with other brand's controller

HTTP WEB Server Remote Management

Controller is able to remotely managed at any time via browsers not restricted by computer brands or mobile phone brands

2 Sets of UART Ports

Flexible integration with peripheral devices, like I/O module, floor control panel, LED display, infrared thermo-camera, etc.

Communication Redundancy

Support TCP/IP and RS485 interface, when main communication disconnects, deputy communication will work to maintain normal work

Features

 Dual communication interfaces: RS485 and Ethernet (10/100M Base T)

- Built-in watchdog, real time clock, anti-vandalism switch, ingress protection, alarm setting, holiday edit, auto open door time zone, door group, door status DI, anti-passback function and duress code & output
- Support user capacity: 16,000 / 32,000 / 65,000 users
- Support floor control: 64 / 32 / 16 floors
- In case Ethernet disconnects, controller is still able to identify UID and record event log

 Multiple access mode: card only, card or password, card and password, fingerprint, face or QR Code.

- Two doors control: Two sets of push button and door status, relay output for lock and WG output for reader
- Multiple DO outputs: Lock, alarm, arming, duress and digital relay
- Supported frequency: 125kHz, 13.56MHz and dual band
- Standalone / Networking is switchable during working Support RS485 communication encryption, SSC (Soyal Security Communication)
- Surface mount and Wall mount installation; it is flexible to select the way to install according to decoration surface.

HOW TO ORDER

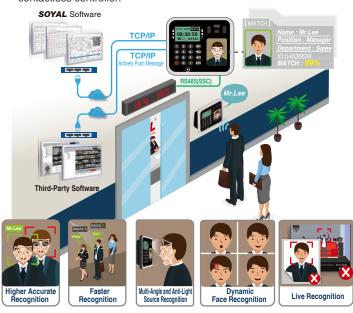

APPLICATION & STRUCTURE DIAGRAM

Live Dynamic Face Recognition For Access and Time Attendance

SOYAL Live Dynamic Face Recognition Controller AR-837-EA features dual Camera and faster & accurate recognition Algorithm with live face expression detection successfully stops fraud access; it is widely recommended in access control management of home, school, hospital, etc. and Time & Attendance management of factory, office and so on; Post-epidemic era, the best choice for contactless controller.

QR Code Visitor Application Integration Introduction

SOYAL QR Code format includes Card ID / Start and Expriry Date / Floors. The 3rd party software can easily develop their visitor software to generate one new QR Code for the visitor; Scan the QR Code via SOYAL QR Code devices to get access both at entrance and on elevator.

- Offline management / No pre-downloading visitor card ID to QR Code device.
- Quickly dispatch QR Code to visitors / couriers / food devlivery personnel to access specialized floors with assigned date / time.

Smart Mailbox Integration Application

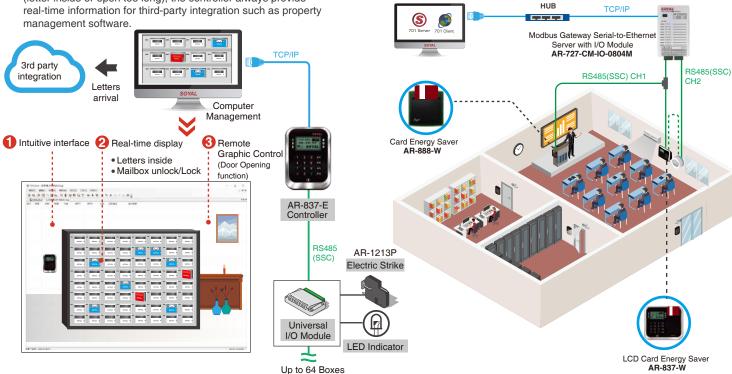

When letter arrives in mailbox, LED light will be flashing to remind user and send a real-time message to software 701Client Pop Graphic; when user swipe card to open mailbox and take out letter, then close the mailbox, LED light will be off and the message will be eliminate in 701Client Pop Graphic.

It can also detect whether the mailbox is not closed and activate alarm when open too long. In addition, no matter what is the status (letter inside or open too long), the controller always provide real-time information for third-party integration such as property management software.

SOYAL Energy Saving AR-837-W can be widely applied in Campus to save electricity on lighting, air-conditioning and so on. When inserting card, the electrical device will switch on; after removing the card, the device will switch off.

The electricity consumption can be charged by time / frequency, etc.

FAQ

Q: How to replace LCD display pictures in standby mode for SOYAL Enterprise Series controller?

E series LCD controllers can replace the pictures displayed in standby mode through a software tool, and can design the drawing file according to your needs, such as the company logo or building image, etc., which can improve the overall image.

Q: How to do wiring connection for Vision series AR-837 with external door bell?

AR-837-E/EE has built-in door bell function, adding a relay module that can connect with external bells, no need to equip another door bell on decoration surface, it keeps the surface clean and neat, simple and elegant. Please scan below QR Code to view the steps of how to do.
